

Name: _____

Date: _____

Period 1 2 3 4 5

Writing a CSET for a math problem.

Follow each step carefully

Then write a final paragraph for your complete answer with all of the CSET parts

Use the CSET Math Rubric to check your answer

C – Claim

This is where you state YOUR ANSWER to the problem you have solved in a complete sentence.

S – Set Up

You need to “set up” the problem so that anyone can understand it from what you are writing. It is often helpful if you think of telling the problem to someone who has not already read it. This is also where the DETAILS of your annotation are used.

E – Evidence

Here is where you show and tell all of your math work.

T – Tie in

What rules or properties in math were used in this problem?
